Personal Profile

Full stack web developer with 4+ years of experience in the industry. Delivering responsive and user-focused websites and applications to clients. Strong in PHP development using Laravel and CodeIgniter, with experience working in a cross-functional Agile team. Comfortable with taking work end-to-end such as scoping tasks with stakeholders, building and maintaining features and supporting deployments. Experienced in design tools such as Figma and Adobe Creative Suite and currently expanding front-end skills in modern frameworks such as Vue.js.

Skills

Front-end	Back-end	Tools & Design	Frameworks
HTML/CSS JavaScript (jQuery) Tailwind CSS	PHP MySQL Python	Adobe Software (e.g., Photoshop, Illustrator, After Effects, etc) Figma	CodeIgniter Laravel Flask

Work Experience

Prime Creative Ltd
